

Corlanor® (Ivabradine) Safety Data Sheet

Revision Number: 3

Date Issued 19-May-2015

1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERSTANDING

1.1 Product identifier

Product Name: Corlanor®
(Ivabradine)
Common Name: Ivabradine
Chemical Name: 3-{ 3-[[(7S)-3,4-dimethoxybicyclo[4.2.0]octa-1,3,5-trien-7-yl]methyl} (methyl)amino]
Synonyms: AMG 998, Ivabradine, Procoralan, Corlentor

1.2 Relevant identified uses of the substance or mixture and uses advised against

Recommended Use: Pharmaceutical
Uses advised against: No information available

Manufacturer: Amgen Inc.
One Amgen Center Drive
Thousand Oaks, California 91320-1799
1-805-447-7233
1-805-447-1000

Emergency Telephone Number: Chemtrec
NORTH AMERICA 1-800-424-9300,
INTERNATIONAL 1-703-527-3887

2. HAZARDS IDENTIFICATION

Emergency Overview

Pharmaceutical product intended for clinical and manufacturing purposes only. Product contains an active pharmaceutical ingredient, Ivabradine, intended for oral treatment coronary artery disease and chronic heart failure. Effect of lowering of heart rate may occur if exposures repeatedly exceed the Occupational Exposure Limiting as describe in Section 8. Avoid inhalation, skin contact, eye contact, and accidental ingestion.

2.1 - Classification of the drug substance or mixture (drug product in final form, not applicable) REGULATION (EC) No 1272/2008

Acute Oral Toxicity	Category 4
Reproductive Toxicity	Category 1B
Specific TOST - Repeated Exposure Oral	Category 2
Acute Aquatic Toxicity	Acute 3
Chronic Aquatic Toxicity	Chronic 2

Classification according to EU Directives 67/548/EEC or 1999/45/EC
For the full text of the R phrases mentioned in this Section, see Section 16

2.2 Label elements

Corlanor®
(Ivabradine)
Safety Data Sheet

Revision Number: 3

Date Issued 19-May-2015

Signal Word

Danger

Hazard Statements

H302 - Harmful if swallowed

H360 - May damage fertility or the unborn child

H373 - May cause damage to organs through prolonged or repeated exposure

H411 - Toxic to aquatic life with long lasting effects

Precautionary Statements - EU (§28, 1272/2008)

P201 - Obtain special instructions before use

P281 - Use personal protective equipment as required

P308 + P313 - If exposed or concerned: Get medical advice/ attention

P202 - Do not handle until all safety precautions have been read and understood

P260 - Do not breathe dust/fume/gas/mist/vapors/spray

2.3 Other Hazards No information available

3. COMPOSITION/INFORMATION ON INGREDIENTS

3.1 Substances

Ingredients:

Active Ingredient - Ivabradine

Chemical Name:

3-{ 3-[[(7S)-3,4-dimethoxybicyclo[4.2.0]octa-1,3,5-trien-7-yl]methyl} (methyl)amino]

CAS-No:

148849-67-6

**Corlanor®
(Ivabradine)
Safety Data Sheet**

Revision Number: 3

Date Issued 19-May-2015

4. FIRST AID MEASURES

4.1 Description of first-aid measures

Eye Contact:	In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
Skin Contact:	Wash off immediately with soap and plenty of water removing all contaminated clothes and shoes. Consult a physician if necessary.
Inhalation:	Move to fresh air. If symptoms persist, call a physician.
Ingestion:	If symptoms persist, call a physician. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person.
Notes to Physician:	Treat symptomatically.

5. FIRE-FIGHTING MEASURES

5.1 Extinguishing media

Flammable Properties:	No information available.
Extinguishing Media:	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

5.2 Special hazards arising from the substance or mixture

Hazardous Combustion Products:	No information available.
---------------------------------------	---------------------------

5.3 Advice for firefighters

Protective Equipment and Precautions for Firefighters:	As in any fire, wear self-contained breathing apparatus pressure-demand, NIOSH (approved) and full protective gear.
---	---

6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

Spill Procedures:	If material is released or spilled, cordon off spill area. Take proper precautions to minimize exposure by using appropriate personal protective equipment in cleaning up a spill. If in powder form, wet down spilled material to minimize airborne dispersion. Soak up material with absorbent e.g., paper towels, and wash spill area thoroughly with appropriate cleaning materials. Dispose of collected material in accordance with applicable waste disposal regulations. Avoid release to the environment.
--------------------------	--

Date Issued 19-May-2015

7. HANDLING AND STORAGE

7.1 Precautions for Safe Handling

Handling and Storage:

Avoid contact with skin, eyes or clothing. Do not eat, drink or smoke in work areas. Use adequate ventilation to minimize exposure. Wash hands, face and other potentially exposed areas immediately after handling this material. Remove contaminated clothing prior to entering eating areas. Clean protective equipment thoroughly after each use. Store in a well ventilated area.

Safety Data Sheet**

Revision Number: 3

Date Issued 19-May-2015

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control parameters

Occupational Exposure Limit: Please refer to Section 11 for more information. No exposure guidelines established by ACGIH, NIOSH or OSHA. Amgen recommends an occupational exposure limit (OEL) of 7 µg/m³ as an 8-hour time weighted average over a 40-hour work week. The OEL is designed as an acceptable airborne concentration of a substance for which it is believed that workers may be repeatedly exposed day after day without adverse health effects. Ivabradine has been classified per Amgen's Hazard Classification System as an Occupational Exposure Band 4 compound (5 µg/m³ - 20 µg/m³) with the following suffixes: A (acute toxicity), R (reproductive and/or developmental effects) Specific Target Organ Toxicity - Repeated Exposure (STOT-RE) - Category 2 Heart

Engineering Controls: When practicable, handle material in enclosed processes or in processes with effective local exhaust ventilation or within a chemical hood.

8.2 Exposure controls

Personal Protective Equipment

Eye/face Protection: Wear safety glasses with side shields, chemical splash goggles, or safety glasses with side shields and a full-face shield to prevent contact with eyes. The choice of protection should be based on the job activity and potential for exposure to the eyes and face.

Skin Protection: Use gloves or other appropriate personal protective equipment if skin contact with formulation is possible. Wear lab coat or other protective over garment if splashing is possible. The choice of protection should be based on the job activity and potential for skin contact.

Respiratory Protection: When possible, handle material in enclosed processes or containers. If it is properly handled with effective local exhaust ventilation or containment, respiratory protection may not be needed. For procedures involving larger quantities or dust/aerosol generating procedures such as weighing or a large transfer of liquids, an air-purifying respirator with NIOSH approval for dusts and mists may be needed. The choice of protection should be based on the job activity and the potential for exposure.

Other: Wash hands, face and other potentially exposed areas after handling material (especially before eating, drinking or smoking). Clean protective equipment thoroughly after each use.

8.3 Environmental exposure controls

Environmental Exposure Controls Avoid release to the environment.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance:	White to slightly yellow
Physical State:	Powder
Molecular Weight:	505.1 Dalton
Odor:	No information available
Odor Threshold:	No information available
pH:	5.1 - 5.4 (at 10 mg/mL in aqueous solution)
Melting Point:	192 °C
Boiling Point:	No information available
Flash Point:	No information available
Evaporation Rate:	No information available
Lower explosive limit:	No information available
Upper explosive limit:	No information available
Vapor Pressure:	No information available
Vapor Density (air = 1):	No information available
Relative density:	No information available
Water Solubility:	No information available
Partition Coefficient (log Kow):	2.1 at pH 7.4
Viscosity:	No information available

Date Issued 19-May-2015

10. STABILITY AND REACTIVITY

10.1 Reactivity	No information available
10.2 Chemical stability	No information available
10.3 Possibility of hazardous reactions	No information available
10.4 Conditions to avoid	This material will present an explosion and deflagration hazard risk when dispersed and ignited in air. Grounding and bonding of process equipment should be implemented. Consider inerting the process environment to mitigate an explosion hazard. High temperature process environments should be avoided to minimize the risk of a dust cloud explosion. This material is resistive and capable of accumulating a charge during process operations. It is recommended that measures are taken to reduce the rate of charge generation during transport. The rate of charge relaxation should also be increased by using proper bonding and grounding of process equipment.
10.5 Incompatible materials	No information available
10.6 Hazardous decomposition products	No information available
10.7 Other information	<p>Dust Explosion Hazard Properties MIE: 3mJ < MIE < 10 mJ (Es = 7) without inductance MIT (dust cloud): 430°C Kst: 270 bar-m/sec ± 10% Pmax: 8.3 bar ± 10% LOC: 10.5 vol % ± 1</p> <p>Electrostatic Properties Volume resistivity: 4.3 x 10¹⁶ Ω-cm Calculated Dielectric Constant: 3.37 Measured Decay Time: 2523 sec Tested on the Active Pharmaceutical Ingredient.</p>

11. TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects

Acute Toxicity:	Ivabradine oral LD50 in rats is 840 mg/kg.
Skin corrosion/irritation:	Slight dermal irritation based on animal studies. Based on available data, the GHS classification criteria are not met.
Serious eye damage/eye irritation:	Slight eye irritation based on animal studies. Based on available data, the GHS classification criteria are not met.
Respiratory or skin sensitization:	Nonsensitizer based on animal studies. Based on available data, the GHS classification criteria are not met.
Germ cell mutagenicity:	Not genotoxic based on a battery of in vitro and in vivo studies. Based on available data, the GHS classification criteria are not met.
Carcinogenicity:	Not carcinogenic in 2-year rat and mouse studies. Based on available data, the GHS classification criteria are not met.
Reproductive toxicity:	Ivabradine oral exposure to pregnant rats and rabbits resulted in embryo-fetotoxicity and teratogenicity.
STOT - single exposure:	Based on available data, GHS classification is not possible.
STOT - repeated exposure:	Ivabradine main repeated-dose oral toxicity studies were conducted in rats and dogs and the heart was the main target organ. Focal myocardial lesion between 10-100 mg/kg/day in 90-day repeat dose studies in rats.
Aspiration Hazard:	No information available

Date Issued 19-May-2015

12. ECOLOGICAL INFORMATION

12.1 Toxicity

Ecotoxicity effects:

- Algae Growth Inhibition test, Scenedesmus subspicatus (72 hrs) ErC50 = 14.9 mg/L
- Acute Mobilization test, Daphnia magna (48 hrs) EC50 = 88.6 mg/L
- Acute toxicity on fish, Rainbow Trout, Oncorhynchus mykiss (96 hrs) LC50 > 500 mg/L
- Reproduction test, water flea Daphnia magna (21 days) NOEC = 1.58 mg/L
- Early-life Stage Toxicity on Fish, Rainbow Trout, Oncorhynchus mykiss (64 days) NOEC = 10 mg/L
- Activated sludge test, Respiration inhibition EC50 > 1000 mg/L

12.2 Persistence and degradability

Persistence/Degradability:

- Ready biodegradability test - Approximately 0% degradation over a 28 day test period (does not biodegrade)
- Water sediment Study - Rapid dissipation from water column: 6.9 to 8.6% at day 4, 76 to 90% at day 14 in sediment (DT50 sediment > 100 days). No transformation products > or = 10% or with increasing concentrations

12.3 Bioaccumulative potential

Bioaccumulation/ Accumulation:

- N-octanol:water partition coefficient (Log Kow) 2.1 at pH 7.4

12.4 Mobility in soil

Mobility in Environmental Media:

- Adsorption coefficient (log Koc) 1.34 and 4.00 at pH 1.51 and 10.58, respectively.
- Water Solubility 47 g/L

12.5 Results of PBT and vPvB assessment

Results of PBT and vPvB assessment: Does not meet criteria of PBT or vPvB compound

12.6 Other adverse effects

Other Adverse Effects:

No information available

16. OTHER INFORMATION

Text of R phrases mentioned in Section 2

R22 - Harmful if swallowed

R61 - May cause harm to the unborn child

R48 - Danger of serious damage to health by prolonged exposure

R52 - Harmful to aquatic organisms

R53 - May cause long-term adverse effects in the aquatic environment
